FOREWORD

The financial statements for the year 2004-2005 reflect the introduction of the Municipal Finance Management Act (No 56 of 2003) on 1 July 2004. This brought about new methods in the management of local government finance. Although this act was and is still introduced partially, it already has a huge impact on the management of the municipality.

The Municipal Finance Management Act (MFMA) is a practical guide for the management of finances, but also for the management of related matters. It enhances the problem-solving abilities of the municipality to benefit both the municipality and the people it serves. As the MFMA is intentionally prescriptive, municipal office bearers, both political and executive, embrace the principle of accountability.

As part of a model point, the municipality received infra-structure grants from National and Provincial Treasuries. These are also reflected in the financial statements.

The integrated development plan, together with the performance management system, are keystones in the service delivery programme of the municipality. These two tools are basic instruments for the fruitful spending of funds, with the necessary responsibility.

Council will study the financial statements together with the Auditor General's report when it is received, with a view to improve basic service delivery, economic development, financial viability, transformation and institutional development.

In conclusion, I express my appreciation to the executive committee, council, the management of the municipality and all the personnel for their support, co-operation and hard work during the year.

I also thank PricewaterhouseCoopers for preparing the financial statements.

Kea le boga. Thank you

CLLR O E KGOPODITHATE
Mayor

AUDIT

To expedite publication, the Financial Statements are issued without the Report and Certificate of the Auditor General.

ACCOUNTING POLICIES

1. BASIS OF PRESENTATION

These financial statements have been prepared so as to conform to the standards laid down by the Institute of Municipal Finance Officers in its Code of Accounting Practice for Local Authorities in South Africa (1992) and Report on Published Annual Financial Statements (Second Edition – January 1996).

1.1 The financial statements are prepared on the historical cost basis, adjusted for fixed assets as more fully detailed in Accounting Policy note 6. The accounting policies are consistent with those applied in the previous year, except if otherwise indicated.

1.2 The financial statements are prepared on the accrual basis as stated:

1.2.1 Income is accrued when measurable and available to finance operations. However certain direct income is accrued only when received such as traffic fines and certain licenses.

1.2.2 Expenditure is accrued in the year it is incurred.

2. CONSOLIDATION

The financial statements include the Rate and General Service, Housing Service, Trading Services and the different funds and reserves. All inter departmental charges are set-off against each other.

3. FIXED ASSETS

3.1 Assets acquired and funded out of operating accounts are not capitalised. The cost of moveable assets capitalised is written off at the end of their useful life or when the internal loans funding such assets has been repaid in full.

3.2 Depreciation

The balance shown against the heading "Loans Redeemed and Other Capital Receipts" in the notes of the balance sheet is an amount to a provision for depreciation, however, certain structural differences do exist. By way of this "Provision" assets are written down over their estimated useful life. Apart from advances from various Council Funds, assets may also be acquired through:

3.2.1 Grant or donation, where the amount representing the value of such grant or donation is immediately credited to the "Loans Redeemed and Other Capital Receipts" account.

3.2.2 Appropriations from income, where the full cost of the asset forms an immediate and direct charge against the operating income, and therefore it is unnecessary to make any further provision for depreciation.

- 3.3 All proceeds from the sale of assets in excess of the outstanding advance are credited to the Revolving Fund.

4. **INVENTORY**

Inventory held by Central Stores at the year end is included in the accounts at weighted average price.

5. **FUNDS, PROVISIONS AND RESERVES**

5.1 Revolving Fund

A Revolving Fund is established and administered in terms of the Local Authorities Ordinance no 20 of 1974, Section 75(1).

5.2 Trust Funds

Monies bequeathed to the Town Council for a specific use under its sole control as trustee are reflected on the Balance Sheet.

6. **RETIREMENT BENEFITS**

The Town Council contributes to the Cape Gratuity/Pension Funds, which are defined benefit plans and are independently administered. The Council's contributions are charged to the various Service Accounts and the employees' contributions are deducted from their salaries and wages. Full actuarial valuations are performed every two years.

7. **SURPLUSES AND DEFICITS**

Any surpluses arising from the operation of the Trading Services, are transferred to Rates and General Services.

8. **TREATMENT OF ADMINISTRATION AND OTHER OVERHEAD EXPENSES**

A cost to cover services rendered by one department for another is raised by application of a fixed percentage of the cost for time spent and the cost of materials, transport and other services used or supplied.

9. **LEASED ASSETS**

All other leases are treated as operating leases and the relevant rentals are charged to the operating account in a systematic manner related to the period of use of the asset concerned.

10. **INVESTMENTS**

Investments appear in the financial statements at original cost and are invested in securities prescribed by the Local Authorities Ordinance no 20 of 1974 as amended.

11. INCOME RECOGNITION

11.1 Electricity and Water billing

Meters on properties are read and billed monthly. Where meters cannot be read for a particular month, they are provisionally billed based on average consumption. Income is recognised when the debt is accrued.

11.2 Assessment Rates

The Local Council levies rates on land and improvements. Basic rates are determined for both land and buildings and rebates are granted according to the purpose to which the particular property is put. Income is recognised when the debt is accrued.

DIE BESTUURDER VAN FINANSIËLE DIESTE SE VERSLAG

1. Inleiding

Dit is vir my aangenaam om 'n beknopte oorsig oor die afgelope finansiële jaar se bedryfsresultate te gee. Die bedryfsoorskot van R5 17 705 en aanwendings van -R497 239 het meegebring dat ons onaangewende oorskot nou op R287 200 staan.

Debiteure

1.1.1) Handelsdebiteure het toegeneem van R10 997 578 na R13 113 659, wat 'n toename van R2 116 081 (19.24 %) beteken. Die voorsiening vir oninbare skuld beloop R4 992 823.

1.1.2) Diverse Debiteure het toegeneem van R2 473 718 na R5 276 042, wat 'n toename van R2 802 324 beloop.
